

UnitedHealthcare's DefinitySM HSA: Make it Work for You

Your Definity HSA empowers you to make health care choices that best fit your needs. We provide the combination of health care coverage, financial tools and information you need to let you stay healthy and use health care services more efficiently.

Use the Network!

UnitedHealthcare is proud to offer access to a broad and deep network of skilled medical professionals and facilities. We contract with over 470,000 physicians and other health care professionals plus over 4,500 hospitals in our networks nationwide.

Once you are enrolled, it really matters whether you stay in the network, or decide to use a non-participating doctor, hospital, or other health care professional. For example, most plans pay for preventive care up to 100 percent – but only if you use the network. Similarly, your deductible and out-of-pocket maximum are likely to be substantially higher if you go outside the network.

We make it easy to find the right doctor for you. You can use our sophisticated search tool online at **www.unitedhealthcare.com** to search the directory for physicians, hospitals and facilities.

We also know that physicians and health care facilities aren't all the same. So to help you make an informed choice, UnitedHealthcare offers several programs that identify leading health care professionals in your area. Because getting care from a leading hospital or physician today may mean a healthier, more active life tomorrow.

Get Preventive Care

UnitedHealthcare's Definity HSA medical benefits include coverage for preventive care services from network physicians and other health care professionals. Preventive care helps you to stay healthy and detect any health concerns early. Preventive services include wellness examinations and certain diagnostic tests such as cancer screenings.

Why Preventive Care?

UnitedHealthcare supports the recommendations of the U.S. Preventive Services Task Force (USPSTF), which are designed to help you and your family prevent illness or detect and treat it early. You can view the most recent recommendations online at **www.preventiveservices.ahrq.gov**.

Talk to your doctor about the importance of preventive care and plan your wellness strategy. Check your enrollment materials for more information about how these services are paid for under your plan.

During the plan year you can track your benefit amounts and lists of covered services on your member Web site, **myuhc.com**[®]. You'll also find a list of items that can be paid for with funds from your HSA, including those that do not apply to your deductible

You've made an important decision to take control of your health and your health care finances. We're here to help you make better, smarter health care decisions with the personalized attention and ongoing support of the renowned Definity HSA consumer experience.
